@Sukesh

I'm working as a Freelancer in Full-Stack development for 5+ years. In these years I've successfully completed so many projects. I've worked on these: Landing page ~ Ecommerce website ~ Blogging site ~ Portfolio ~ Delivery site ~ Digital Marketing Website ~ Admin dashboard and so on. While working on these projects I've got expertise in HTML, CSS, JavaScript, jQuery, Bootstrap. Besides that, Python, Django, MySQL, Mongo DB, and CMS are my second choice for modern technology. I Have also knowledge of Android and Ios App development. While working on these projects I've got expertise in Kotlin JAVA Flutter For Frame Work And backend For PHP And Laravel Frame Work.

## ACHIEVEMENTS

**Freelancer Fiver & Upwork**

Full Stack Developer

01 JAN 2022-Present

I've learned all the technologies by myself with the help of YouTube & Online Paid Course. I've tried so hard to reach my destination. I've faced so many problems during my learning period. Still, now I'm trying. I've completed projects in my freelancer account and outside of the freelancer site. It's one kind of my achievement.
